Turning Off Google Chrome Automatic Updates [1](#) [2](#) [3](#)

Google Chrome has no built-in option to disable automatic updates, but you can stop them using Windows or Mac system tools. Below are step-by-step methods for each platform.

Windows – Using System Configuration (MSConfig)

1. Press **Windows + R**, type `msconfig`, and press **Enter**.
2. Click the **Services** tab at the top.
3. Check **Hide all Microsoft services** in the bottom-left corner.
4. Scroll to find both **Google Update Service** entries.
5. Uncheck both boxes next to them.
6. Click **Apply**, then **OK**.
7. Click **Restart** when prompted.

Windows – Renaming the Update Folder

1. Press **Windows + E** to open **File Explorer**.
2. Enable hidden files via **View > Show hidden files, folders, and drives**.
3. Navigate to `C:\Program Files (x86)\Google` or your user's AppData path.
4. Right-click the **Update** folder and select **Rename**.
5. Enter a new name and press **Enter**.

Windows – Using Services Manager

1. Press **Windows + R**, type `services.msc`, and press **Enter**.
2. Right-click **Google Updater Internal Service**, select **Properties**.
3. Set **Startup type** to **Disabled**, click **OK**.
4. Repeat for **Google Updater Service**.

Mac – Renaming the Update Folder

1. Open **Finder** and click **Go** in the menu bar.
2. Hold **Option** and click **Library**.
3. Open the **Google** folder.
4. Rename **GoogleSoftwareUpdate** to another name.
5. Restart your Mac.

Mac – Changing Auto Update URL

1. In **Finder**, go to **Applications**.
2. Right-click **Google Chrome.app** and select **Show Package Contents**.
3. Open **Info.plist** in a code editor.
4. Change the value of **KSUpdateURL** to any other text.
5. Save the file.

iPhone – Disabling App Updates

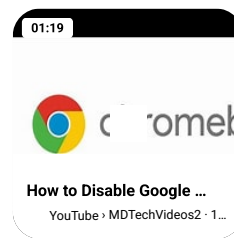

1. Open **Settings** and tap **App Store**.
2. Turn off the **Updates** switch.

Android – Disabling App Updates

1. Open **Google Play Store** and tap your **profile icon**.
2. Go to **Settings > Network Preferences > Auto-update apps**.
3. Select **Don't auto-update apps**.
