These are results for gre math subject paper based **test** score difference between 73 and 100

Search instead for gre math subject paper based ytest score difference between 73 and 100

◆ AI Overview

On the paper-based GRE Mathematics Subject Test (scaled from 200 to 990), a scaled score of **730** and a score of **990** reflect a massive performance and percentile gap. ETS | Global education a... +1

- **Scaled Score 730:** This typically corresponds around the **50th to 60th percentile** depending on the specific test edition reference population, meaning you performed better than roughly half of the other specialized math test-takers. ETS | Global education and...
- **Scaled Score 990:** This represents the **maximum possible scaled score**, placing you at or above the **99th percentile** (outperforming nearly all test-takers globally). ETS | Global education and...
- **The Difference:** A jump from 730 to 990 bridges the gap from an average/mediocre performance for a math applicant to an elite, near-flawless mastery of advanced undergraduate mathematics. ETS | Global education a... +1

If you are evaluating your score for graduate applications, tell me:

- What **specific scaled score or percentile** did you get?
- What **type of graduate program** (e.g., Pure Math Ph.D., Applied Math, Statistics) are you targeting?

I can help you figure out if your score meets typical departmental expectations.
